Also included can be a listing of Child Safety Resources. I particularly enjoyed the many personal comments and opinions created by Dr. His composing style is usually that of a good friend - immediate, friendly, and easyto-understand. Brandenburg through the entire reserve, which he supports along with his experiences as an emergency room doctor. My ParenTime highly recommends "Child Safe and sound" to parents and anyone worried about children. It's not only well-written and easy-to-read, you'll find it a wonderful guide that'll be referred to often. BabyLounge. Dr.Part We of the book is nonage Related Injuries where you will learn about the various dangers that are present in everyday lifestyle, and what that you can do to prevent your child from getting injured. Everything from the safest automobiles to preventing home fires is protected. Component II is Age-Related Accidental injuries, where in fact the chapters are conveniently divided into: Infants (0-12 Months), Toddlers and Preschoolers (1-5 Years), and School-Age Children (6-13 Years). This section gives specific info on the types of hazards that are relevant for every of the aforementioned age ranges. I buy into the Author that a child must be supervised at all times due to the convenience with which kids sustain accidents from unsuspecting circumstances. You may be surprised to learn just how many potential risks are lurking in your own home, car, garage, playground, etc. Did you know at least one child drowns in a bucket of water every week? Or that swallowing home furniture polish can be deadly? The most difficult cases to deal with are those in which a kid has been significantly injured or killed because of something that might have been avoided. Kid Safe is an excellent book and a great guideline for all parents, grandparents, and day-care companies. I highly recommend it! I have investigated misuse and neglect allegations regarding children for pretty much ten years. I have both child protection books and movies in my store. I was anxious to read the brand new book "Child Safe" because it is created by an emergency physician and because I am a member of the Safe Kids Coalition in Tulsa. I feel it's important that I become up to date with the latest information on child safety in order that I can be considered a reference to my customers along with providing guality items. I also acquired to make the decision as to whether I needed to sell this reserve in my store. I'd be happy to talk with anyone about this reserve and its own relevance to contemporary protection issues that are vital that you all parents. I am grateful to him for writing this publication. You'll learn about the numerous safety hazards which exist for your children, as well as find a set of item recalls. The author highlights the most typical techniques infants, toddlers, and preschoolers obtain hurt, and what you can do to prevent these injuries. Another important issue that is discussed in the book is gun security. Brandenburg's book is crucial READ for not only parents, but for anyone who works closely with kids including daycare personnel, teachers, social employees, etc. Another area covered in the book is child abuse. Parents must be educated and prepared to react to situations that point to the very serious problem. General, I feel this book is excellent and should maintain every home in which a child lives or would go to. Many children sustain injuries which are the result of abuse or neglect. Essential reading for all parents

who want a safe world for their children. I specifically like Child Safe due to the an easy task to follow format based on the stages of child growth. Excellent Work!com offers 5 pacifiers to Kid Safe If you're worried about Child Basic safety (as you ought to be), but you're not exactly sure preventing your child from getting injured, then you've come to the right place. Brandenburg identifies in his book many potential hazards to the health and safety of children. It has convenient cross references to different types of injuries linked to specific age groups. Basic safety from A to Z I own a Safety products store in Tulsa and I am constantly looking for information and products on safety for your family, with an focus on child safety. There have been many cases in which I attained a hospital or house to discuss with a child's parent(s) or caretaker the reason of serious injuries or death with their child. The reserve is just as important in a house as a fire extinguisher or smoke alarm. Other cases, however, are the result of a major accident which could have been prevented acquired the parent/caretaker been aware of a potential hazard to the kid. The glad tidings are that this book will assist you to eliminate most of the risks and make it not as likely that your kid will get harm. Dr. I was pleased that the Author emphasized the significance of parental supervision. With regards to keeping children safe and sound, there is no limit to the quantity of information that parents can receive. This problem is getting so much interest in the press that every parent, if they very own a gun or not really, must be aware of the dangers that exist from guns and teach their children to be aware of the hazards that guns present.
