Great insight in autism As an autistic child and being gifted with a very mechanic thought process Ron Davis understood which managed to get so hard for him to emerge from autism himself. Strongly suggested. What I love best about it could it be isn't "retraining behavior" but it is founded on helping the individual to evolve his feelings of self and offering him equipment /mental tools through the use of clay and learning him/her to comprehend the different concepts in live, we non-auti persons tak for granted. It's finished with love and clearness. The book might be confusing to read for those who don't know the ideas from "the present of learning" but it will be clear once you know these. Five Stars This books has explained Autism so well if you ask me. The book on autism everyone offers been waiting for! Among the authors is normally autistic, so he knew the complete story. It clarifies the Davis Autism Approach in a beautifully basic way, covering the different facets - individuation; and the process of social integration. methods to identity advancement; He analysed this and developed a lovely method of helping an autistic person. Five Stars Excellant Five Stars great product Understand how the autistic child thinks and what must ... Rita Huckabee an easy helpful read As with the books on dyslexia it is a super easy read and offers been very helpful. This is essential read for anyone who is supporting a person with autism. Learn how the autistic kid thinks and what needs to done so he or she can participate in existence fully. Another great book form Ron Davis Five Stars An excellent sensitive life changing publication /programme One Star Not really helpful join ordinary people A very promising way for autists to be able to bring there gifts into society, also to create more understanding amongst non-autistic people
