I came away with some very useful information! Well crafted by high style fashion salonist Eva Scrivo and exceptional fashion illustrator Jennie Yip...We came apart with some very useful information! Thank you Eva and support team for all your hard work in putting this together. At 65 I have Found it necessary to rethink what spent some time working in the past with what I have to work with now and you have provided me the tools vision to do that. ;! I suggested for women who have classic good flavor. It is not for people who want in fads and far out styles. Greater than a coffee table book A wonderful informative reserve on how to be comfortable in your attempt to wear the right hairstyle, makeup, and generally be the average person God made you to be. Loved the tips, photos, etc. Loved. As several reviewers observed before me, that is one you can try your hairdresser to improve the cut he or she is giving you or try a fresh hairdresser to describe what you want. what is not to love love love approximately Eva and her staff what is never to love love like about Eva and her personnel.. Lovely pictures of different types of layering and cuts, but that's not what I was hoping for in a Beauty/Style reserve..a real experience that proceeded to go way beyond getting my locks done Educational book beautifully illustrated! Thank you Eva and support group for . Ms. Usually, skip it. The reserve can be a treasure for anybody thinking about haircare and beauty. True Beauty I love this book and also have discovered a lot. It is a great throughout beauty book and I really like that it covers locks, something that a lot of books don't. A must for each woman!) Jam packed with great information The book covers every beauty topic very thoroughly and is mostly practical. Worth Every Penny If you are considering purchasing this reserve, buy it! It is by far the most useful and comprehensive beauty publication I've ever read. It offers concise, realistic, and practical tips on almost everything: hair, makeup, skin care, wardrobe, and diet plan to mention a few. Skip it Get this if you are a teenager aspiring to become hair stylist. MANY THANKS Eva for writing this! Get this book, you won't be sorry. Four Stars Informative for all ages The best book I've ever found for hair cuts and colouring for the house user This book is marvelous. Practical, timeless information. I have several books that contact on locks cuts and hair dressing from professionals ranging from Nick Arrojo (the locks guy on What Never to Wear) to Robert Veticas Good to Great Locks and Frederick Fekkai's A Calendar year of Style. HOW EXACTLY TO Look Expensive by Lustig and Fekkai have been the best up till today. This reserve by Eva Scrivo blows all of them out of the water. FINALLY an expert opens up about how to obtain a hairdresser to provide you with a cut that functions for your locks, and explains how exactly to style it daily (pro blow out advice worth it's pounds in gold!0 and throws in an whole chapter on fitting your hair colour to your organic complexion. The chapters on make-up, fashion and ageing are also great, but it's that advice on hair which makes this book a must have for anybody like me who provides puzzled over the glib assistance in the magazines on getting and maintaining a good cut and colour.! I got more out of the book in one day than I have from years of reading mags and beauty books. Yip is usually a practiced professional in her field provided easy to understand locks cutting and styling techniques..
