. From how to browse the quality of materials and workmanship in a garments, to how exactly to take care of cleaning them, the information is shown in a witty, informative, useful method. Weil has not only great info, but a way with words and the turn of a phrase, which made the reserve that a lot more enjoyable to learn. While I individually would love to have seen more illustrations than the many that are already in the publication (e.g. of the different button holes designs, zippers, etc.. You can only hope that Weil continues to write about this subject, as she's thorough, educated, and writes well. I have already been shopping at thrift stores for 25 years. This book helps any shopper find the gems in the tough, and throws in additional chapters on fit, design, fabrics, and flair. You will not be disappointed. My fave thrifting publication. If, however, you are looking for an excellent reference to quality clothing construction within an entertaining structure? This book is perfect. The key to finding great secondhand clothes finds is not in label-searching. The true secret can be learning the hallmarks of high-quality clothing building. If you buy one book about vintage clothes, buy that one. This book outlines how exactly to identify quality products. hints on how best to place quality, fakes, the best fit, how exactly to remove stains, & Great This book is just a little dated, but it has really great solid information. Her book is a enjoyment for the senses in every ways. Awesome book. This publication shows me that it's been mostly fortune and I know that I often buy duds. These shopping tips are invaluable to those folks who would like superior clothing but wish to pay secondhand prices. little bit outdated, but nonetheless very useful This book was really beneficial to me. It opened my world to the grade of products, mostly clothing. It was a great find!! Awesome book. But, it also offers tip about fit and structure of clothing to consider in thrift and consignment shops..) and images of some outfits having the design components talked about, as I'm greedy for more vintage information all the time, not having these included doesn't detract out of this book whatsoever. Many people touch upon my "finds" and believe that I have some kind of gift to find treasures at thrift shops. I thought I understood a whole lot until I read this book. witty, causeing this to be book a fun read. Definitely a great reference book for fabrics, clothing design and easily fit into addition to SH shopping LOVED this book LOVED this book! So much info! Anyone who loves clothing and has a good slight curiosity in purchasing secondhand should go through this cover to cover.. I am a vintage & bargain clothing fanatic & Weil is very knowledgable relating to her subject & Excellent and useful book This is one of the very best books to read if you're interested in, or in the event that you collect and wear, vintage clothing.. wrong! thought I understood how to spot the very best deals .. Great fun and information packed! how to care for clothes. It's like obtaining a comprehensive lesson from a reliable friend. Weil's style is casual & Perfectly researched. I liked it! No-Nonsense Guide To Value and Quality of Workmanship If you are searching for tips on what earrings to pair with that lovely emerald skirt, you can gloss on by this book. Great advice from an educated writer. Five Stars are prepared on the fifth following it is great Good book Good book.. An ideal bargain clothes shopping guide! good info Informative book Bought to read for a job at Buffalo Exchange. Very useful.. provides numerous suggestions & I originally purchased it because I was likely to open a consignment store. It helped me to learn that my mom taught me a whole lot about clothes quality. I thought I knew a lot until . I am glad I go through it and I'd recommend it to a new thrifter.
