I don't know why We expected more. ways to get a husband .. I don't know why I'm surprised I was disappointed in this.! This wasn't horrible, but it was like reading an extremely long text message, or Facebook post, complete with every other sentence closing with "Ha-ha!" Maybe if that weren't the case, it would have already been more tolerable. It makes me feel like she actually wrote the book herself instead of having some ghost article writer put some generic reserve together and then slap her name on it for cash. Yea, wellbeing born with a silver spoon didn't harm either. This book is certainly full of product placement (I don't think they make that Trish McEvoy lipgloss anymore btw) and gross male biased strategies for a "happy marriage. No real chemical except written such as a rich valley girl. I have literally tried googling her locks and style guidelines and anything I could discover about her personal upkeep because she looks so good and clearly knows what she is doing - this book has all that!" But yea Kyle, you're totally "real! I should of passed on this reserve . Onto Lisa Vanderpump's greatest seller! Dull drab A lot of bragging about her ideal husband and how fabulous and hands on she is as a mum compared to the other Hollywood mum's! That is one person's opinions on from dating, makeup &. This book is EVERYTHING! I have no idea just why there are negative reviews because of this book! It really is everything I could have desired in her book - and more!! Four Stars Good book boring this book was trying much too hard to be funny and cutesy. God forbid should my guy see me "that way. i skimmed the whole book in a few hours. When I browse the book I could literally hear her saying what in my mind - 'haha' and all!Kyle basically launches into an autobiography and "advice" concerning how she achieves her perfect lifestyle. I am so so content I browse this! If you love Kyle and need to feel just like you are seated in an area with her dishing about like, parenting, and beauty secrets - then buy this reserve! Easy light reading RHOBH has just started screening on free to air in Australia, right from the start I actually was hooked and intrigued. Kyle (provided I am just a little House fan, and of similar age group) is my preferred. I believe this reserve helped me understand the present a little more, in other phrases what you see is often not what you get. I found a lot of the reviews unhelpful and perhaps just a little spiteful, I am pleased I purchased the publication, enjoyed!!"Don't waste materials your time. A boring read.. Five Stars Perfect just what i was longing for! Thank you This book is a tale... Kyle got paid to have someone else write this trash... Wish it doesn't all keep coming back and bite her in the bum! the only chapter semi interesting, was the chapter about her mom.SAVE YOUR MONEY! Didn't realize it had been a how exactly to on life ! A real housewife, will not an author make, but I guess I gave her an excessive amount of credit since Kyle always seemed to be the least crazy of the bunch (and because I loved both of Bethenny's books).! That is a pathetic example of how Kyle Richards dupes the general public time and time again. I REALLY LIKE Kyle on the

present - she actually is clearly an amazing mom and friend and is usually super compassionate and a genuine girls-girl! And I could tell that she had not been paid to press any items or some unusual agenda. actually making the effort to essentially read it harm my head. the "tips" were just recycled from every beauty and fashion magazine.and she visited the bank! Real Housewife no talent in writing Pretty superficial I'd say." I guess I should be happy I don't reside in Beverly Hill cause there is no way I'm doing my locks and putting lipgloss on before my coffee.
