Great Book for the Seasoned Couple This is one of the best Marriage books I've purchased. Read it! It can help to define where we are as an older handful of 34 years and what marriage and companionship appears like at our age. Excellent book with helpful tips! SUMMARY: Could the second half of marriage be the stunning season of marriage? Loved it! The second half could be even better than the first. Loved it! A very insightful book. Highly recommended to those in the latter 50s and above. The second half could be even better compared to the first. I felt such as this book is more geared toward empty-nesters. Great book Great book I felt like this publication is more geared toward empty-nesters I'm in my own 40's. Didn't particularly enjoy the writing design, but maybe it had been just because I am not the target audience. Five Stars I liked it quite definitely, loved the life experiences distributed by different lovers, and felt it had been too short! It is such a great someone to read and discuss as a couple. A message for all who are married:-) Still married haha Great read great insight great insight Fantastic advice from a trusted source... An excellent book preparing couples for the physical and psychological changes of their old years! With part notes, interesting interviews and a lot of revelations, I learned a few things, confirmed some products, and enjoyed my period reading. Delving into different facets of marriage-children, finances, retirement, grief, activities-from the perspective of the later years of life, Married BUT STILL Loving It peers at the adjustments experienced over many years of marriage. Filled with personal stories, guidance, discoveries, encouragement and faith, and connected with interviews from long-wedded, well-known couples, the second half of marriage may just be the most beautiful period of all... A PENNY FOR MY THOUGHTS: What a wonderful book to share with parents, grandparents, Life Groups, church ministries as well as your personal spouse. Organized into a flowing design in a reader friendly manner, I both flipped through it reading snippets after that read the entire publication from cover to cover. New York Times bestselling author of The 5 Love Languages, Gary Chapman, and co-writer and CEO of Christianity Today International, Myra Harold, explore the thought.
