The astonishing tale of just a little girl who was different, her cat and how they brought a family together. And then a miracle happened: Iris said her first terms.' Iris Grace is different. Wonderful' Daily Mail, Books of the Year' An astonishing talent' Daily Express' A miracle' Best' Astonishing, extraordinary' ITV News' Iris' s astonishing tale of talent and relationship with Thula can be lovingly told' Daily Mail . From the moment she was born she found the world a strange and terrifying place: she neither smiled nor spoke. But Iris met Thula. The doctors couldn't help, telling her parents she might by no means be able to communicate - she'd under no circumstances contact them mummy or daddy. This special kitten and Iris became instant close friends. They did everything together - painting, playing, bathing, snuggling, sleeping, exploring.' Different is amazing .The story of the amazing bond between Iris and Thula is a heartwarming tale of finding hope and happiness in the most unforeseen places. Because different really is brilliant.***' Moving, honest and full of hope. .

Eloquently written. Beautiful photos! When I saw her gorgeous paintings I thought, this little girl has looked into my mind. I had consequently been keenly interested about Iris Grace on Facebook and was anxiously awaiting the publication which would have given me some insight into this family members and their dealings with an autistic child. I couldn't deposit my kindle edition until it had been completely read by 2. I ordered the book about the kindle because I possibly could not await it in the mail. It was that great. The book itself is nicely constructed and feels good to hold. Ms. Johnston pulls you into this narrative from the first page., having my level in Special Education actually made this publication a fascinating book to read. Many thanks for sharing this story! An added bonus are Iris 's beautifully rendered artwork and vibrant pictures that capture an internal peek into this particular family.S. She needed a place to be creative like Iris and reading the book I have followed Iris and Thula's journey on Facebook. I didn't recognize that I had started following her immediately after Iris' family members received the medical diagnosis. Cannot wait! I anticipate another book to read about Iris Grace and Thula progress and journey! The area provides transitioned since to a craft room. I know she's oceans aside and we've under no circumstances met, but Arabella's garden area inspired me to be more in tune and alert to my daughter's needs. She needed a place to be creative like Iris and reading the reserve, I realized that their facebook posts inspired me to take the leap of faith and make it work. In the book, you can feel her strength as a mother- her fear, her like, her enthusiasm. I did so become very thinking about Iris Grace and her mom, Arabella, though, for several reasons. Arabella's not ideal- she's a genuine person and she has along days, however the photos are magical and the tale is powerful and the reserve has it all. This family members is amazing. The bond between Thula and Iris can be beautiful, and I cherished reading about Arabella and PJ's background and Arabella's link with animals and character as a child. Outstanding reserve!30 am. I am glad I did, but I think I might need a hard copy too eventually.the photographs are beautiful and the paintings are stunning--about a lovely child, her incredible mom, and a lovely journey. Add it to your cart and follow her on facebook! Absolutely beautiful I loved this publication. Iris' mother is not a "professional" writer and for me--the mother of an autistic child--that was the real beauty of the publication. Her words and story were therefore heartfelt and genuine...thus down-to-earth. She was so clearly able to allow the reader into her world and, more importantly, into Iris' world also to get yourself a rare glimpse in to the mysterious world of autism. I possibly could relate to so many of her encounters and sometimes felt I was right there with her. I cannot state enough about the physical beauty of the reserve as well. A beautiful book--quite literally.. And I acquired it sooner than expected. If you're on the edge, simply pay attention to me--- DO IT! Amazing! A must read! Shipping time might have been better, but overall satisfied Five Stars Beautiful book and incredibly informative about the struggles and joys of an Autistic child and her family. An amazing little girl and her wonderful parents who took the time to understand their daughters world and how music, a kitty, books and nature may connect her globe and theirs together. Gives a new perspective to Autsim. Can't wait to read This looks like a great read.! We turned our living room into a 'zen' calm down room and the walls are a little bit impressionist so I acquired hung Iris' post cards set around. Bravo to her mother's difficult journey learning how to connect to her child. One is resulted in a clearer understanding of the frustrations, the anger, the pain and the few moments of exquisite joy that a parent of an autistic kid experiences!! Outstanding book! The journey of this beautiful and talented child and her wonderful parents can be an inspiration not merely to those parents whose kid may be on the autistic spectrum, but to any and all mothers and fathers. Arabella, who's the mother and writer of this incredible publication is profoundly honest and a very, very good writer as well as a keen photographer. This is a wonderful story of a mother's love and dedication, the trials, tribulations, and unique difficulties of raising a child on the spectrum, and eventually, the victories and the celebrations and gratitude for them. All told, anyone reading this story and holding magnificent proof of love and caring and talent is fortunate indeed. Lovely reserve, interesting photo, beautiful paintings and photos I came to find out about Iris Grace through a shared post about Facebook. I'm really not really someone who follows tales about autism or reads books about people who "overcome" handicaps of various sorts. You can relate. I love cats, especially Maine Coons. Five Stars Very moving story plus beautiful photos and extraordinary paintings! I was initially attracted to the posts about Iris Grace because I have always been intrigued incidentally autistic children react to their globe, how they learn and the human relationships if any that can be forged by autistic children and their caregivers. Arabella can be a photographer, therefore am I, and I

like her photos. I've a cat that is a close companion therefore I love how Thula provides bonded with Iris and Iris with her. A Fellow Mother or father of an ASD a Child A warm touching story of the challenges of ASD that keeps you turning the pages. I haven't browse the entire publication yet but I was drawn into the tale of Arabella and her hubby and how they have arranged their lives to give Iris the very best support possible. The very best part of the reserve for me may be the photos of Iris and Thula and the plates of Iris's gorgeous paintings. I understood the basic information from Facebook but reading the publication and being used to the struggles, the frustrations, the resilience, the determination, the errors, the breakthroughs and the good and the bad of a family determined to survive with an autistic child was amazing. Loved this book! My daughter, while not on the spectrum, also experienced difficulties and I, as a sleep deprived and consumed with stress mother, felt so much relief from Arabella's articles and was inspired by her to get other ways for connecting with and nurture my child! I think Thula must be an angel. Of course, the cats stole my center (a big cat person) and Iris' paintings are A-mazing. Amazing book and great service This is an excellent book!. I recommend it! It is an honor to end up being allowed into this profoundly personal experience Iris Grace is absolutely the most amazing book I have ever read, and I am 77 yrs . old. It was interesting from a perspective of Europe and U... Iris is normally lucky to have so much support and love and to have obtained the creativity of both of her parents. It really shows the way the struggles with autism can be a gift when learning to embrace it and obtaining what works for your kid or grandchild. Bought another book for a child who has a child with autism. This is a beautiful story of a family dealing with autism This is a lovely story of a family group dealing with autism, well crafted, with plenty of pictures, including the amazing paintings of their youngster. Very moving. I'm learning to color and in my own mind's eye, the kind of painting Let me do is certainly what Iris paints. A-mazing Being from the U.A book that is well worth the read and incredibly strongly suggested for teachers, parents and anyone interested in how kids learn. We have been invited into her existence, her home and she shares these intimate details of her relationship with her autistic child so that we have a clearer knowledge of kids on the autistic spectrum through Iris Grace. It certainly shows the way the struggles with .S. ideals of location to seek help, homeschooling vrs. "Open public" Education with an Autistic kid. Inspirational, 5 stars! Just a great tale with plenty of hope.
