A Bad Reaction is an excellent Memoir! Kudos Sarah Bridges. A Touching Story I was really impressed with the publication. Sarah provides a non-biased view into vaccinations and shares what sort of bad reaction to a vaccination make a difference a family forever. It had been a privilege to consider the trip with Sarah, Porter, Tyler and all of those other family. It was real, intense, unfortunate, funny, annoying and inspiring, occasionally all on a single page. My favorite quote in the publication was by way of a Tibetan Buddhist 'everything preceding this event was aimed to prepared you for this minute'. I learned that the author is not anti-vaccine. I am carrying out a Bad Response on Facebook therefore i can continue to follow Porter's trip. In the case the reader is not a parent, the tale is appealing since it discusses a subject matter that's prominent in news stories from a location of actual experience. . An extremely approachable and personal account of 1 families trip through a tragic event This book is a candid and incredibly human story about the challenges a family endured following a vaccine reaction. It is an extraordinary person who will be able to sustain this type of hardship and then respond by looking for meaning, to help others. know what to expect when I started reading "A Bad Reaction". THEREFORE I do know the struggles a family undergoes in situations such as this. I am not really anti-vaccine, therefore i was ready to "nothing like" or "not trust" the reserve. I am a mom. What a gut wrenching and heart wrenching account of giving an answer to a crisis with your child. Sarah is the saint of persistence and has provided us the gift of understanding her and Porter. I emerged away with a greater understanding of your day to day connection with parenting a child with ASD. She recounts the story of her family's encounter- including their bureaucratic knowledge, in an honest, and often entertaining way. I would find myself wrapped up in a tragedy, tearing up with compassion and then turning the web page to giggle as Sarah Bridges recounted real life moments that were endearing and down right funny. It had been utterly refreshing to learn something so actual and raw. I don't have a particular needs child, and still discovered myself smiling and stating, "me too". From one family member's particular diet effecting everyone, to the roles each member assumes, to federal government regulations- Sarah Bridges assists us realize we have been not alone in daily challenges. Nice job Sarah! Reading this book was like seated with a well-educated friend. Excellently written, Engaging and Balanced Perspective This book provides brilliant, well-written, engaging context on the reality about adverse reactions to vaccines. Sarah Bridges and her family members have learned to thrive in spite of circumstances. The writer was quite brave to tell this story and you will realize why when you go through it. The reserve is inspiring and at the end of the day -whatever your opinion on vaccinations- that is a GOOD STORY. It really is empowering, enlightening and well crafted. Her perspective can be candid yet written with psychological and scientific maturity. I came across myself linking to her encounter and at times laughing aloud at her capability to catch the irony, absurdity yet deep love involved with living through the traumatic injury of her child. Heart wrenching accounts of a mother's love and persistence. This is actually the story of a mother, a family group. No one must have to move through something similar to this; but, Sarah displays what sort of parent can do that with courage, love and persistence. Well written and something any mother or father should read but especially a mother or father with a particular needs child.. I recommend this book, not only to parents and the ones involved with children with special circumstances but, to all parents since it speaks to the common bonds of households. This publication will shatter your heart and build it back collectively once again, piece by piece, as you acknowledge the tremendous courage, optimism, resilience, cleverness, and parental like of the amazing woman, Dr. This was among those books that you select up and don't want to put down. I have a member of family with Autism. I am not anti-vaccine I didn't know what to anticipate

when I began reading "A Poor Reaction". It just would go to show you that regardless of what situation life throws at you, or better said when life throws you lemons produced lemonade. Most of us have situations in lifestyle to get over. I was impressed with how she handled hers. This book is a must read and parental like of the amazing woman In case you are tempted to low cost parental worries about vaccine injury, this book is for you personally. And it is usually for all those, delivered with accessible prose, clear-eyed details, and a deep compassion for the reader. I wouldn't call it a vaccine tale, I would call it a like story. Sarah Bridges... It does point out the impact a very poor compensation program is wearing a family members trying to receive support and aid while going through immense personal pain. The book isn't anti vaccine but instead tells the reality of a family group who must face the psychological, physical, and financial difficulties of having a particular needs kid. From the first middle of the night time crisis to the growing realization that her son has had an extremely severe and ultimately life changing response, Sarah walks us through the difficulties her family faced because they learned to make peace with the long term impact of her sons response. Sarah Bridges is a gifted storyteller who takes us in the lifestyle of a family group of a kid with special needs. Hearing what is like to become on the other side of harsh and thoughtless feedback by strangers who do not know her story challenges us all to be a little less judgmental and a lot more compassionate. Sarah tells her story honestly, without blame or bitterness, and often with humor. It is a great read that may leave you both laughing and crying. Sarah Bridges is a gifted storyteller who takes us inside .. Beautiful Love Story An amazing story of a mother's strength and perseverance in the face of unthinkable circumstances. She shares the challenges faced by many families as they cope with one relative with special needs whether they are diet plan, behavior or something else. She incorporates the technology of autism with vivid descriptions of day-to-day issues. She gives excellent, non-biased information by balancing her medical background with layman's terms. Thanks for letting us into your life.
