This book was straight to the point, can't wait to try out the facial soap recipe. Amazing Kudos to those that make these soaps. I personally wouldn't have the tolerance to do them. Plenty of recipes and I believe I would have loved to have more basic recipes. I simply love that you can include specific elements to create your own soap. Straight to the point. This is actually the second soap producing book I've read and I'm a bit hooked! Most of them seem complicated for a beginner. Excellent for first-time soap makers. Really good for first-time soap makers, like me! That said, the soap dishes in here appear to be they would be great fragrant soaps. Five Stars. Great recipes. Great read. Great recipes! I recommend this book to anyone who prefers to do homemade soap. Five Stars. Good read. Can't wait around to make the soap. We wish there had been pictures too.
