

# CHILDREN TOPICS

*from A to Z*

VOLUME 1

A Guide for Tackling Tough Issues

A photograph of a baby with dark hair and blue eyes, wearing a yellow dress, crawling on a light-colored floor. The baby is surrounded by several large, colorful balls in shades of orange, blue, and green. The background is a soft-focus outdoor scene with greenery and a path.

A Must have for any parent's library... Roberts' experiences as a Teacher and a Parent. An acute perspective about raising happy, healthy and independent kids. As an initial time grandma to a two month old, I know I will refer again and again to Ms. Just love the topics and the information from Ms. and encourage parents to have a copy (hard or ebook) as they maneuver the world of parenting their kids... This book is an excellent little head to guide. This book is a good little head to guide. :) I only wish I'd got it sooner! It isn't only perfect for parents but caregivers, teachers, really whoever has a child in their life some way. It's very informative. The personal experience blended in throughout helps it be more of a great read in comparison to bland children topic books I have read before. The type of book I would recommend Five stars all the way, well crafted and informative plenty of insight and examples of the authors stage throughout the book, a pleasure to read. However you may possibly also look for the topic you want and read that topic if short on time. It is filled with great ideas, and written in a way that left me feeling motivated. An excellent read from page one. This is an extremely well organized bundle of information. I enjoyed reading since it was an entertaining source. Highly recommend this guide for anybody interacting with children. Being a parent, grandmother and a great grandmother, I have to loudly write that this guide is a definite for just about any parent to possess on the bookshelf. Ms. Roberts provides given clear pathways for AD and ADHD situations to manners situation also to etc. with kids. Thank you Randa! I liked the way the author gave facts. The info found within is varied and expansive. I loved the way the author gave facts, methods, and personal encounters to illustrate and educate. This reserve would make an excellent gift for any fresh parents. I don't recall smiling or laughing while reading the dictionary. As a mother of three small children I loved it! A POSITIVE approach to raising children. Roberts reserve.. Lots of inside into children's behavior using a positive approach. A definite thumbs up. I give this book a 5-star rating. The Perfect Resource for Everyone with Children I came across this book to be a great reference for information on an array of subjects from toddlers to teens. I truly enjoy that the author has included fun activities that can be done with my children. A book I'll give as something special many occasions over. I recommend checking this one out and I look forward to the next volume. I am recommending this book to all parents and grandparents for example. Small kids? Then you need this. Unlike various other books, that all seem to stick to the classroom edition of how to raise a kid, THIS book instantly tackled subjects that I was curious about and handled many challenging topics that, today, are more present than ever. Really helps bring items into perspective with some truth and judgement. That is something anyone with small kids in the family should have inside your home for reference and encouragement. I definitely will keep this information near me as I trip the street of raising three kids to adulthood! What a wealth of information for just about any parent or grandparent. I have read a lot of parenting books, but this one gets my vote! I didn't be prepared to find so very much good information about the precise topics that I care about. I love the way she helps you through the tough moments with your personal child or grandchild through her own private trials and tribulations. A great read from web page one. I would highly recommend this guidebook to anyone who interacts with kids!
