Perspective is priceless Breast cancer is about both sides of my family. Weaver was willing to share her most vulnerable occasions so truthfully with me. This reserve will touch and inspire whoever has just received a medical diagnosis of a lifestyle threatening illness, somebody who is definitely facing an obstacle that they fear will take them down and those who want to know very well what fighting for your life looks and feels like. 13 years ago both my mom and maternal grandmother had been diagnosed within months of every other. Both survived, but I was still terrified. Then when a dear friend, my age group, was diagnosed a few years ago, my concern with getting breast tumor became even more real to me. Until I read Melissa Weaver's reserve, 'Reconstruction,' I only had access to the outward ramifications of breast cancer, its impact on family and friends, and drip drops that my mother, grandmother and friend shared. I had no idea of living with it, but what I viewed only added to my fears. This story isn't just focused on one woman's triumph however the victory she experienced with her family members and, if anything, leaves you with a sense of gratitude in the end. Ms. By enough time I read the last page of 'Reconstruction', I finally understood what it means "to have cancer" from the other side because Ms. I under no circumstances fulfilled my paternal grandmother. By doing this, she opened my mind and heart so I could see another way to frame having cancers rather than mindlessly fearing it. I highly recommend 'Reconstruction' to whoever has cancers, but I definitely recommend it to anyone who understands anyone who has or acquired malignancy. The perspective she provides is definitely priceless. It is so hard to exist to the fullest with all the current background noise, however your phrases make me wish to listen in more and live in the here and today.. But the simple fact is that this book is for everybody! triumphant! A definite must examine. My heart hurt as I read your tale - and my center sang as I watched a woman We don't even know operate and claim her existence!" My words to Melissa Weaver upon reading her incredibly natural, honest, compassionate tale of loss and, moreover, GAIN. Melissa Weaver really can be courageous as she holds nothing back in her story of battling malignancy and the interactions that compelled her to continue living. It explained I was going to read a story, that of one woman's fight through the increased loss of a child and the tumor which would challenge her very core only a short while later, which could have me cheering at the end. Thank you to get your projects Melissa Weaver - you are an inspiration!. Inspirational Melissa your heart and words are beautiful. Natural, honest, compassionate...your tale can help other women to understand that they can and they WILL survive. She had currently had several traumas in her existence and now Malignancy. She describes her journey within an articulate, witty and moving way, providing support, wish and inspiration throughout her entire story. That this reserve starts with a declaration of gratitude for her cancer gave me chills. This book is approximately LOSS and GAIN since it weaves you through the pain of losing a kid, dealing with tumor and to overcome impossible odds by the end. The writing is top notch and speaks to you just like you are right there with Melissa, having a conversation and hearing her story personally. Now I can truthfully state that for the first time in my life, breast cancers doesn't scare me any longer. Life is unpredictable we hardly ever know what will probably be handed to us therefore, in Melissa's case, you can either surrender or push through it. Melissa's love and dedication to her wife and children is normally inspiring and her message is normally fabulous. "I am in awe of your strength, your committed want to Suzi as well as your daughters, as well as your commitment and determination to Survive this trauma. A must read, cannot put it straight down!. The tale is inspirational at the minimum and teaches us the most important human lesson of most: Love conquers all. I also adored reading about the Front Row Foundation, I've not heard of this prior to Melissa's story and they are amazing. Melissa has woven journal entries from the actual period she was battling breast malignancy with her current post-treatment insights, perspective, and wisdom. I am in awe that this is her first book,

since it seems like she has been writing for years. your beautiful, raw I have recently been identified as having Breast Cancer (lumpectomy scheduled weekly from Tuesday) which book, your beautiful, natural, honest and inspirational reserve came at an ideal period. I am feeling every one of the feelings you felt and it made me somehow feel "normal" again. That is a must browse for anyone who is going through anything life changing. MANY THANKS for this!! Building a new life I gave this reserve a five star rating. This amazing shift in perspective led to her ability to both recover and fulfill her very best dreams. I learned a lot about Cancers and how it results your life and those around you. Like conquers all in this story of courage, bravery and building a lifestyle of purpose! This publication helped with ideas you or another person you know may need. Viewing her regain her existence was an excellent story.. Melissa writes about the events that inform her lifestyle with grace, beauty, and strength. Recommend this book to everyone..Many thanks for your work. Beautifully written. I really believe it is a difficult problem to live your very best lifestyle, we get rid of ourselves so easily particularly when you possess a loss, and Melissa demonstrates with the right tools you can overcome almost anything. We was amazed at the raw honesty, courage and emotional bravery that story represented. This publication is usually a must-read for anyone encountering a terrifying and uncertain scenario in life as Melissa presents light and clearness from her personal life's journey. Reconstruction: Defying Cancer and Rebuilding a far more Purposeful Lifestyle .. Weaver's story, her powerful words and her gorgeous, courageous warrior spirit motivated me to re-form my fearful romantic relationship with breast malignancy into one which is constructive. I gained new insight in to the lifestyle of a dear friend and fellow breasts cancer survivor. This memoir provides her tale that illuminates a map of self discovery and defying the words of doctors and the echo of personal strength. The result of this trip and comprehensive transformation for that which was a loss of life sentence into a journey and mission and battle cry for living. It is important. Raw, honest. Many thanks to be brave enough to share the inner most part of yourself. Open, honest inspiring account Open, honest account of surviving and then choosing to thrive in face of cancer. She died from it when she was 47 years old (the age I will be in three months), and all I knew developing up was that breast malignancy killed people and I was terrified to getting it. Melissa writes about the events that inform her life with ... Must-read for anyone experiencing a terrifying and uncertain circumstance in life. Reconstruction: Defying Cancers and Rebuilding a far more Purposeful Existence by Melissa Powell Weaver speaks to the core of everyone's hopes and fears . She's overcome so much and is an inspiration to all who read this. Read and reconstruct your daily life! I can understand that those who have been diagnosed with cancer and cancers survivors would advantage greatly from this book.. Anyone who has confronted adversity would benefit from reading this. This publication goes right to your heart and you also end up going for a great look at your life and the choices you must make a difference. That is a true tale, told by an incredible human being, turning up in the world and guiding us towards a brighter future! This amazing shift in perspective led to her ability to both . I possibly could not put this publication down, strategy and simple it was natural, emotional and uplifting.. In her publication, Melissa recounts her trip into, and out of, cancer. However, on a deeper level, she moved out of something deeper than physical affliction, and uncovered more than physical curing. Specifically, she moved from fear and inner alienation to a feeling of gratitude forever, purpose, and a stronger version of herself. It was very well written. I particularly liked how she applied self-treatment, compassion and the practice of journaling and research. No matter our setbacks, we become free whenever we practice acceptance and start proactively taking action and living from a location of purpose. Excellent book, and will undoubtedly be a way to obtain inspiration for many!
