In fact Gary experienced me laughing aloud although that may have been his intention. that while the amounts look positive there are always a whole set of seniors whose numbers want down. Like steel employees whose jobs are no more relevant whenever a plant closes or sales decline, these seniors are no longer relevant because of their age even though they're smart, highly skilled and eager to function. Wexler doesn't play the "unfair" card, rather he explores the truth of industry. Companies seek a young workforce for most good reasons simultaneously recognizing that one skills accumulated via encounter are just as desired. The theme of the book is that seniors need to think BIG in order to stay relevant. Using his years of advertising encounter working for companies like Apple and Coca Cola, Wexler seeks to instill a methodology, he phone calls a Manifesto, that all baby boomers can embrace. Great read and i'm all over this! including creating a function organism that consists of a baby boomer and millennial employed in tangent. My guess is normally that book started as a guide predicated on his workshops to help nonprofit businesses succeed. He cites his effective work with many corporations and non-profits and his passion for the Talmud and Yoga exercise. if we're ready to go there. But that software of this book reaches a very much broader audience. But end up being warned, Wexler thinks fast which means you need to be a bit tolerance as he jumps from idea to idea but that tolerance pays off as this publication leaves you, if you're a baby boomer, with ways to stay relevant. Both his incisive evaluation of socioeconomic forces and his frank revealing of his personal story are riveting. A powerful primer for those in the nonprofit or activist sector and an excellent read for any boomer or millennial. Gary tells it like it is. And more than that, he suggests ways to get it a helluva great deal better by mining the gold from the Woodstock generation. It's a great read and a primer for anyone in the non-profit or as Gary prefers, the activist sector on how best to get the most from all of the generations. As a fellow boomer and a director of a nascent non-profit, I enjoyed every page and was motivated and counseled in how exactly to best more ahead. Message: refuse to age group gracefully. Brian Koffman, Medical Director, CLLSociety.org A must-read for Baby Boomers and Everyone under 40! Wexler brilliantly calls focus on an unprecedented opportunity which will be lost in ten years -- for vibrant Boomers and clever but unseasoned Millennials to create unstoppable teams. This is a unique publication that provides both a strategy and tools to help you think BIG, not only smart. Joining The Rebellion I'm prepared to join the rebellion. Whether you're a boomer, a millennial, or anything among, this is a must read. Wexler's factors are passionate, insightful, and problem the reader to believe beyond their very own perspective. I enjoyed this read very much I enjoyed this read quite definitely. Bruce Powell Great read and i'm all over this Gary Wexler captured what I have experienced many times in the workplace.. As a fellow boomer, I identified with many of the experiences and emotions explained by Gary in this reserve. Tornado of Energy Interesting read, since a boomer myself its reassuring that I'm not dead yet either. Must go through. Message Stay solid, Gary. Gary is usually a tornado of energy. Gary Wexler opens doorways for creativity and reinvention no matter what artificial label we place on our generations or ages. I came across his feeling of optimism and adventure inspiring and empowering. Proceed vividly, powerfully and memorably, and keep fixing the world with everything you've got. Boomers, Millennials, and everyone among - this is a must read! The definition of the underlying problems rings 100% accurate to this Boomer and the ten Communiques present apparent action steps that apply to this, or any, significant change. I anticipate sharing it with close friends and colleagues. The writer lays out an orderly approach to achieving types dreams as a boomer nowadays, but will it with a joyful, often humorous outlook that makes this a fun read as well as a valuable tool for success, A must browse for all those
