Lots of helpful materials on caregiving, along with lovely stories of Susan's experiences. Having had two separate experiences with caregiving, We read Susan's book to see how similar our tales might have been. It's filled with practical, useful. I laughed and cried as I followed the many stages and emotions she described. Well worth it! Many thanks, Susan, for your smart words. This is such an excellent book therefore timely for me This is such a great book and so timely for me! Great, practical advice, mixed with humor and understanding words written by one who has certainly "been there, done that" in a occasionally imperfect way, with imperfect parents. I recommend it! I completed in tears as she defined the passing of her parents, but also with good memories of experiencing spent period with them. It's ... It is a very open, honest, and vulnerable look at the procedure for care-giving told by somebody who wants others to not feel alone. I could relate to much of her composing, and wished it had been available before we took upon this challenge. "hearty" advice that won't be found elsewhere. However, amid it, one can really feel alone so when if no-one else out there has been down this road. A Practical and Personal Treasure for Care-givers There are a lot of books out there that talk about the practical, informative side of care-giving. It had been written by my good friend and recounts her encounters in looking after her elderly family members. Matters of the Center does both! Well worth the read! I am referring/lending this book to many friends...to learn from her experience.. Susan needs the reader on her behalf trip with her elderly parents.and to understand how to survive that experience rather than lose themselves in the process, being all the better for it. You will laugh and cry, take notes and gain wisdom from the writer in this readable book. It isn't only about Susan's personal trip, but filled up with practical suggestions, guidelines, and insights. In an age where so many adults will see themselves care-providing for a parent or relative, this reserve is certainly a treasure. Susan is very open about her caregiving experiencesMatters Of The Heart: A Journey in Caring For Aging Loved Types I will be purchasing several of the books to pass along to my close friends that I know will benefit from reading it. It is an inspirational publication, a resource book, an instrument kit . I was very excited to discover a book like this that dealt with matters that I have had to deal with in the last a decade. Care giving seems to be something we all are aware of and many folks have had to take care of. It's a original help for both caregivers and the ones who are cared for. Wonderful Read! Along with that, she provides many practical ideas and solutions to situations that may arise when taking care of a loved one. She also expresses so well those things that you may not need thought about that you'll most likely tackle in the future.It is easy to read, filled with good stories and types of life situations.We highly recommend it for all those facing or are in the center of caring for someone.. both the discomfort and joy of maintaining elderly loved ones "Matters of the Center" is a lovely cross between a deeply personal caregiving trip and a practical idea handbook. Susan's may be the authentic tone of voice of experience, both the pain and joy of tending to elderly loved ones. As a caregiver myself, I especially related to her wisdom on the value of keeping a sense of humor, practicing enormous amounts of tolerance and actively attempting to prevent isolation.. As I go through this reserve, I was struck how many of the feelings Susan talks about were exactly what I have been feeling. I received this publication as a Xmas present and had difficulty putting it down. Even when i finished the book, I found myself selecting it up over and over looking for more! It was a convenience, encouragement, and education as I go through and recognized with the anecdotes and discovered from her superb caregiving advice. I was very excited to discover a book like this that handled matters that I've had .and many practical suggestions for a variety of situations. This publication is a must read for anyone with parents or that's planning to age themselves! There is a lot of practical info that

I will encourage our children to learn and understand before they're confronted with similar times. An excellent book if you are, or know, a caregiver Whether your are a caregiver, or know a caregiver, this publication is really worth the read. Susan obviously knows what she is discussing, and her practical and insightful suggestions is invaluable.. A great resource and inspirational book for anybody with elderly parents. Caregiver or not.. It's chock filled with old experience and wisdom... That is an enjoyable and heartfelt examine, one that will certainly impact your own journey.it is all what you should help yourself on the caregiving stage you will ever have. It was written by my good friend and recounts her experiences in looking after her .. She also brings her Texas-sized sense of humor to a difficult topic, making it even more personal, relate-capable and worthwhile. One of my goals for this weekend was to finally end this book. Additionally, there are lots of books out there that tell the story of care-providing from a narrative aspect. I am referring/financing this book to several friends. Everyone should go through this book, as we will all face the process of aging. There are questions for additional though and exploration as well as other helpful resources and books to help you along the way. I cannot recommend this highly plenty of. and education as I go through and identified with the anecdotes and learned from her exceptional caregiving advice Just what a blessing this book is! She shares all the facts, the nice and the ugly of taking care of older people. Although both of my parents have got passed, I came across the book to become a great read and very thought provoking as I consider my own aging process. Thank you, Susan, for sharing your special hard-earned skill set with those folks who are in this phase of lifestyle and needing guidance! Susan is both winsome and practical in informing what it really is like to care for aging parents with dignity Not merely is this a tale of a personal trip of loving your aging parents well, nonetheless it is a story others can identify with and learn from. Susan is certainly both winsome and useful in informing what it is like to look after maturing parents with dignity. This is a precious book that interweaves the tales and real life experiences of a child care-providing for both of her parents while imparting to the reader valuable here is how to care-give.
