There can be an unnamed feeling that haunts most men. The universe's Inventor designed us like he designed the world: with passion and precision and purpose. However the culture of this globe ambition and greed and fear teaches us to disregard that feeling. Our culture nudges us toward isolation and insecurity, boredom and fatigue, selfishness and survival. It's a guide to living with the depth and purpose God produced us for. Therefore we silence our queries. He produced us for self-confidence and significance, joy and romantic relationship. Wasn't I made for more? But we are designed for more. It's a feeling that there's more alive than the day-to-day existence we're living now. Is this really all there is normally? He produced us to participate something massive and majestic, to donate to his function of remaking the globe. He produced us to play essential parts in his Kingdom. Invention can be an invitation to become listed on a band of renegades and revolutionaries, change-manufacturers and troublemakers, men who don't accept the globe as it is, because they know they're made for something better. This enemy spins lies that convince us into distraction and dependence on alcohol, drugs, pornography, and success-at-all-cost. Can we see recent these lies? Can we begin living the way we're designed to live? Jesus said, "We came so they can have true and eternal lifestyle, more and better life than they ever imagined. Is this really all? However the one ruling this world now could be a vicious enemy, hell-bent on keeping us from becoming the men we're meant to become, and from carrying out the things we're meant to do. It teaches us to maintain our heads down, to check out the system, to man up and power through because that's what we men are likely to do. It will help you see the lies that obscure God's purpose for you personally and reconnect with God's style for your life." He said that about us.
