Now I can't wait until mine is definitely cured to observe how it turned out. It's an excellent read with awesome dishes for cool press soap making. I am of African descent with limited, curls. The 1st soap I ever made was the Goat Milk and Honey Shampoo Bar. I really liked how it cleaned my locks and left it shiny and well described. My whole family was impressed. I am looking forward to using some of these other recipes. Best soap book I have Best soap book I've! Love the dishes! I convert the dishes to goat milk soaps and they turn out beautifully! Great book, incredibly helpful This book is beautifully created! Absolutely perfect for starters. The design and organization is well thought out and so much understanding is shared in a very easy to digest manner. But not as fascinating as I thought it would be. I came across most helpful were the transformation charts, the organic colorant color swatches, the easy-to-understand use of SAP ideals, and the immense quantity of starter recipes. I truly understand how to craft my very own recipe using percentages and SAP ideals. This book is one book of a collection and should not be your only source though. I came across this writer had subjective views on which natural oils should and shouldn't be used for "ethical reasons" and which additives must not be used predicated on the authors "research", but please note the author does not share some of this research in the form of footnotes or asterisks or are the analysis listed in the references area of the book.. I've learned so much from this book, the organic and right way to make soap. Easy to follow directions. Ideal for both beginners and experienced soap makers. Only could have loved more pictures but I'm pleased with the book. Well worth it! so much more Great read for Chilly Press Soaps I wanted books on making soaps and found that one!

Time....Exspence...space The book answered a lot of questions I got about oils and scents. It really is in my digital purchase history but not allowing me to see a lot more than the look inside. Too many animal products for me I wish I had read more reviews as well as perhaps sampled this before I bought it. I'm vegan, and every recipe I've viewed includes lard or tallow. Wow! download doesn't work I think the book contents are most likely great, but I can't browse it. Oh, well. From what I am aware I can probably alternative (responsibly sourced) palm essential oil as long I'm careful to to check on everything, however the reason I purchased the book is basically because I'm a beginner soap maker and I needed to just follow a recipe.. When I first purchased, I could examine it on my pc." Would love to make some soap! Can anyone immediate me? The required space for the soap making process and curing time. Now, I purchased all the substances to make soap and can no longer access the book. Diverse recipes Therefore many cool recipes. calming soap, camping bug repellent soap, acne soaps, baby soaps, hair shampoo soaps. Lots of useful info.. they have a soap for everything. Great book! Thanks a lot! .. Didn't recognize that it was an electronic copy. Great Book for Beginners I would recommend this book to newbies and to all soap makers. I really like this book for the info on normal alternatives to harsher chemical substances and for the amazing recipes. Five Stars Great product.. Quality of the paper is good btw Good resource good book for first time soap manufacturers using lye. Very informative Like this book.. Great for a starter in the wonderful world of soap making. Good book but not for me We was expecting a whole lot of photos in this nonetheless it is mostly phrases I'd say. It teaches you a little bit of everything so it's very useful for the beginners. A great balance between both the art and the technology behind soap making. Great starter book My girlfriend loves this to no end. I had hardly ever done it in this manner before.
