Reserve was recommended by a friend and I really enjoyed it What a cute book! Book was recommended by a pal and I really enjoyed it. You will too. Love this!! It's the best way to combine the fun and importance of reading . Now her more youthful sister has began to join in when we browse it and the remembrances are priceless. Love this book! It's therefore cute watching her work out all the actions and I love that it offers gotten her up and moving. You won't regret this one!. This book is indeed cute! It's a great way to combine the fun and need for reading with activity and movement." This is a must-have publication for your kids. Would recommend to others! Simple fun My kids are a bit older (6 and 4) but they're convinced they're 'creatures' so they're around this publication. My six-year-old is understanding how to read, so she's taken the lead on that front.! Your kids will like this book! This is such a great book! Our daughter loves mimicking all the animal actions and it's even helped encourage her vocabulary development, saying phrases like "jump, kick, roll. It is the ideal blend between reading and perform that gets the kiddos off the sofa and moving around within an intentional way...!! This is such an excellent book! We hardly ever read it only once! This book is so fun. It leaves people laughing and out of breath. My kids appear to have contests to discover who can do the actions the very best! Definitely recommend!! This book is indeed fun!! Frequently less is more, which totally applies to this one. In a global full of so many good types this is near the top of our list! My babe adores it and I can't await more from this amazing author!! This book was a Christmas Gift for our 3 year old daughter earlier this December and she loves it.
