I got lucky. Yum! Win/win!value getting simply for the guidance on how to cook rice which as he said doesn't work that well about the rice setting, There is it very useful in terms of cooking meals. My grandma's was falling out of the binding and she may find the chocolate chip cookies with her eye closed. I've made many of the other quality recipes, too. Idea this along with my first quick pot. I've by no means cooked any grains apart from rice before this reserve, therefore the section on beans and grains was an excellent learning experience for me. Superb! Lovely book! Not only for holidays A publication devoted solely to holiday cookies and treats could turn into a dust collector on my cookbook shelf but We was thrilled to try out these modernized classics plus things We never heard about but which I can make again and again now(not necessarily simply for holidays!) I hardly ever review cookbooks but that one I felt I must talk about . Highly recommend. I like this book! Amazing!. A lot more than just recipe! Well this book does not have plenty of recipes, but actually explains how to use an instant pot and steps to make many items like yogurt, ricotta. etc. Lots of easy dishes in this book. Fundamental or Complex, you select. I really enjoy that! Done well! I really like this book! Some of my favorites consist of: homemade hummus, beef stew with mushrooms and barley, tuscan chicken stew, mushroom and poultry sausage risotto, and rustic herb stuffing. But that one was in great condition, so I guess I'll have significantly more time to use it to rags. Like this book. And I was not expecting it at the steal of a price I got.We've a plenty of good dishes here! Cooks food quickly, easy to clean, and not too large to store. Great! Brilliant job made by author! Cool Amazing view by author! Good! It is nice Nice! I view a Youtube video tutorial to learn to use my pressure cook. Nice book! Great! Especially the hazelnut fudge and almond ricciarelli cookies. i really liked that not merely were you understanding how to cook foods, you were learning to cook items in the moment pot. Lovely! 10 stars if I could. I love the instant pot. Produced soup and chicken both arrived very nicely. For example, it gives you the recipe for poultry, but you could omit all but basic elements and you have prepared chicken, or coffee beans, or whatever main ingredient is, to work with. desire in it!! Like!!! Perfect!! The publication is number 1! The author's witty design makes this cookbook fun to learn, and he carries a lot of helpful details.
